Règle du jeu

Loto Marabout

Compétences travaillées :

- Apprendre à découper un mot en syllabes.
- Repérer syllabe d'attaque et syllabe finale (rime).

But du jeu :

À la manière d'un loto, il s'agit d'associer deux mots ayant une syllabe identique. La syllabe finale pour les mots des cartes et la syllabe initiale pour les mots des jetons.,.

Le premier à pouvoir associer 5 cartes et 5 jetons a gagné.

Préparation : Après avoir plastifié les deux plaques de pions, je vous conseille de les coller sur du carton mousse afin de faciliter la préhension des pions et d'éviter qu'ils ne glissent sur les cartes.

Dans le cas où les enfants jouent en autonomie, il conviendra de choisir un meneur de jeu à qui sera confié le memento du jeu.

Déroulement :

Distribuer 5 jetons à chaque joueur et laisser les autres jetons à disposition dans un sac opaque. Placer les cartes, en pile, à l'envers, au centre de la table.

Chacun son tour, un joueur tire une carte et donne le mot correspondant au dessin qui y figure. Il place ensuite cette carte face visible sur la table. Chacun cherche parmi ses jetons un mot commençant par une syllabe identique à la syllabe finale du mot de la carte. Le joueur qui trouve le jeton qui convient le place sur la carte et prend celle-ci. Il pioche alors un autre jeton afin d'en avoir toujours cinq.

Le jeu continue ainsi jusqu'à ce qu'un des joueurs possède 5 cartes. Il est alors déclaré vainqueur.

BON JEU !!!
